

Memorandum of Understanding between Centre for Liveable Cities and the Singapore-ETH Centre

Close collaboration has always been key to our ability to push boundaries in delivering impactful real-world solutions. This is especially important in urban planning where there are multiple stakeholders and diverse planning scenarios. In this light, the Centre for Liveable Cities and Singapore-ETH Centre signed a Memorandum of Understanding (MOU), on 4 October 2023, which seeks to foster collaboration and research in areas critical to building resilient and liveable urban environments.
