

Appointment of CLC's Advisory Panel (2024 – 2026)

CLC's Advisory Panel serves as an invaluable source of expertise and mentorship for the Centre. As established leaders in their respective domains, Panel members, led by Professor Cheong Koon Hean, bring a wealth of experience expertise and advice to CLC's work and projects, and help the Centre connect locally and internationally.

The Smart City Dialectic: Challenging Assumptions of Inclusivity

With the advent of data and technology-driven initiatives, many cities across the globe have embarked on projects capitalising on the power of technology to improve urban living conditions and overcome existing limitations. The "smart city" strategy is neither confined to top tier cities nor to cities in the developed world, as the Association of Southeast Asian Nations (ASEAN) Smart Cities Network exemplifies.
