

Urban Innovations in the City II

24 April 2017 | 3:30pm – 5:00pm | **URA Function Hall**
Networking & Registration from 3:15 pm - 3.30 pm
(Guests are to be seated by 3:30pm) | Free Admission
Prior registration is required [here](#)

A continuation of the “Urban Innovations in the City” series, the second instalment will feature the innovative master-planning approaches that JTC adopts in its role as Singapore’s lead agency for the development of industrial infrastructure. JTC’s Assistant Chief Executive Officer, Mr David Tan, will share on JTC’s efforts in shaping Singapore’s urban environment and ensuring that the emerging needs of Singapore’s industries are well-supported.

Speaker:

Mr David Tan
Assistant Chief Executive Officer (ACEO)
JTC Corporation

David oversees the land planning, redevelopment of land, procurement and contract management, as well as the master planning and development of JTC’s next generation estates and developments like one-north and Jurong Innovation District. He has over two decades of professional experience in a multitude of areas from leadership & management, engineering & innovation to industry development; having been involved in the planning, design, construction and project management of major infrastructure, building and reclamation projects. He was involved in the development of the Jurong Island as the world’s top ten chemical and energy hub and the development of Jurong Rock Caverns, South East Asia’s first underground liquid hydrocarbon storage and terminalling facility, located some 150m beneath Banyan Basin.

Moderator:

Mr Tan Szue Hann
Head, Sustainability
Surbana Jurong Pte Ltd

Mr Tan is Head of Sustainability at Surbana Jurong, and is also Singapore’s 2015-16 Building Construction Authority - Singapore Green Building Council Young Green Architect (BCA-SGBC) of the Year. He is a Registered Architect with the Board of Architects, and a Council Member of the Singapore Institute of Architects, chairing the Sustainability Committee. He is also a Board Member at the SGBC. In 2016, he was nominated as a World Cities Summit Young Leader.

About CLC

The Centre for Liveable Cities was set up in 2008 by the Ministry of National Development and the Ministry of the Environment and Water Resources, based on a strategic blueprint developed by Singapore’s Inter-Ministerial Committee on Sustainable Development. Guided by its mission to distil, create and share knowledge on liveable and sustainable cities, the Centre’s work spans four main areas - Research, Capability Development, Knowledge Platforms and Advisory. The CLC Lecture Series is a platform for urban experts to share their knowledge with other practitioners. For more information, please visit us at <http://www.clc.gov.sg>
